Mix 3 – Mark – All Vox, Lead Guitar, Acoustic Gtrs, Steel Guitar, Rhythm Gtr, Kick, Snare, Talkback

Mix 4 – Brad – Lead Guitar, Both Acoustic Guitars, All Vox, Steel Guitar

Mix 5 – Mike – Lead Guitar, All Vox, Steel Guitar, Both Acoustic Guitars

FOH MIX NOTES

- We require a true full stereo mix in FOH with center fill and auxed subs.
- We feature 2 lead singers, and strong 3 part harmonies. Brandon and Mark will alternate lead vocals. The lead vocals should be strong and up front for both. Please be willing to use appropriate vocal effects but use sparingly to avoid sounding like we are in an auditorium, etc. Also we will need reverb effects on both acoustic guitars.
- Please no gate, limiter or compression on lead guitar as the lead guitarist is a very dynamic player and his own volume control is crucial to our sound. No compressors on IEM Vocal mixes. Also, there could be a difference in volume between the clean tones and the distortion tones when the distortion pedal is engaged for certain songs. Please make sure to give that a listen at sound check to make sure levels are even between clean and distortion lead guitar out front.
- We are a dance band as all of our songs are carefully chosen to be danceable, please make sure the kick drum is well defined, felt as much as heard and in the subs.

2022 STAGE INPUTS and MIX DETAILS
